

**Shandong Zhuoxing Chemical Co., Ltd.**  
**Zibo Zhuoxing Enterprises Co., Ltd.**

### Advanced Polycarboxylate based superplasticizer

Advanced Polycarboxylate based superplasticizer adopts multi-level composite system an rawmaterial selection, and is produced and configured by multi-component copolymerization of three or more macromonomers under certain conditions. The product quality meets GB8076 (national standard for water reducing agent), and "temporary technical conditions for high performance concrete for passenger dedicated line", low alkali, no chlorine, no corrosion to steel, non-toxic, harmless, safe for health and environment.

#### **property**

Small dosage and low cost:Commonly admixing quantity is 0.5~1.2% of cementing materials.

Low proportion; High water-reducing rate, which can reach above 40%;

Products has the functions of High water reducing performance , High Strength-increasing, and lower shrinkage .

Fresh Concrete has a good workability and pumpability, Non-segregation and non-bleeding. After hardening the concrete, products has a smooth outside and compacted inside.

#### **Scope of Application**

Can be widely used in all kinds of concrete projects and cement product,for example:

- 1.Advanced Polycarboxylate based superplasticizer is suitable for long-distance construction projects type pumping concrete.
- 2.Advanced Polycarboxylate based superplasticizer is suitable for compounding normal concrete,high-performance concrete,high-strength concrete and ultra-high strength concrete.
- 3.Suitable for impervious,antifreezed and high durability concrete.

#### **Our advantage**

1. We have free samples
2. We have 10 years of product development experience, professional team to provide you with all kinds of products you need
3. We have a large production plant
4. We have various quality inspection certificates, ISO14001, ISO9001, China Railway

Certification and other certificates.

5. Our company's products are all environmentally friendly products tested by professionals, non-toxic and harmless.
6. We have long-term cooperation with logistics companies.
7. We protect the bag from moisture during transportation
