

Shandong Zhuoxing Chemical Co., Ltd.
Zibo Zhuoxing Enterprises Co., Ltd.

high range water reducing admixture

Introduction

high range water reducing admixture is a new generation
Eco-friendly high performance polycarboxylate superplasticizer
developed by our company with DD-912 (EPEG 3000, C6
polycarboxylate ether monomer) as main raw material.

Quality Specification

Item	Unit	result
Appearance	/	Colorless to light yellow viscous liquid
Density	g/cm ³	1.10±0.02
PH	/	5-7
Solid Content	%	50±1.0
Initial Water Reducing Ratio	%	≥15
Cl-	%	≤0.02
Alkali content	%	≤0.3

Characteristics

1. Increase setting time at elevated temperatures.

2. Superior slump retarding property: Excellent slump retention performance, particularly, it improves the slump retaining properties of high workability of concrete, while not influencing the normal setting of the concrete.
3. Good cohesion: It has good cohesion to the concrete, which makes the concrete have good workability, no segregation, no bleeding.
4. Good dispersion: The concrete has very good fluidity, easy to cast and compact, adaptable to self-compacting concrete.
5. Wide adaptability: It has wide adaptability with good dispersion and flowing retention ability to varieties of silicate cements, common silicate cements, slag silicate cements and various admixtures.

Our company

Our Product were widely used in all kinds of concrete,mortar,plaster projects and exported to more than 30 countries, Such as Russia, Germany, Australia, Chile, UAE, Korea, Vietnam, Africa etc.

Our Product was made by 100% Virgin Material with advanced equipment , we have one full set of precise testing instrument, testing equipment and quality inspection team, technology research and development team. the management system was certified by ISO9001
