PCE Powder Superplasticizer

Comparing with PNS and other superplasticizer, PCE superplasticizer has many characteristic advantages in technology and performance as following:

- (1) low dosage, high rate of water reducing;
- (2) keep concrete good slumpton retention;
- (3) good compatibility with cement;
- (4) small shrinkage of concrete to keep the stability of volume and durability;
- (5) environmental in production and usage. Base on above advantages, PCE superplasticizer attract the attention from engineering field and has been widely used in some important projects. Predictably, base on above advantages,
